

VULCAN CAST ALUMINUM VENTS & CAPS

Vulcan Cast Aluminum Vents surpass the competition simply because of their outstanding life span. They have been field tested and have a proven life of over 25 years outdoors.

PRODUCT DATA

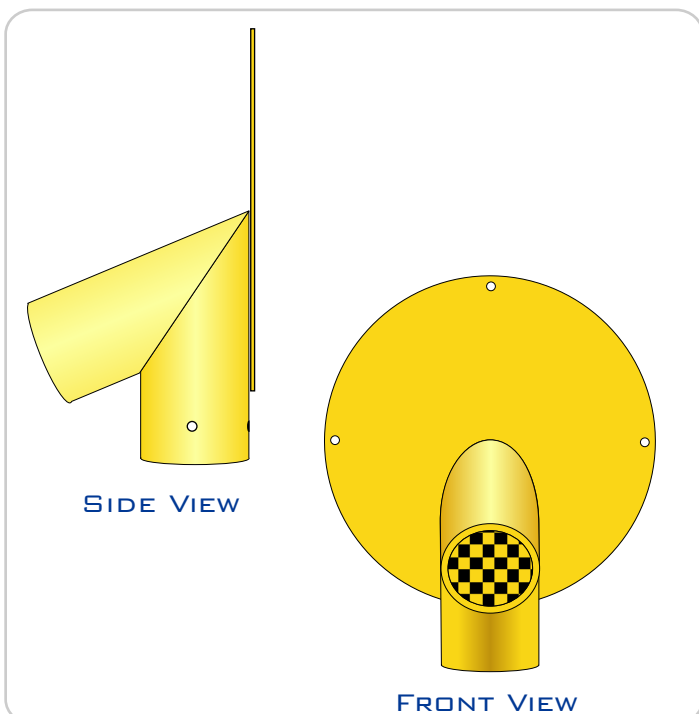

VULCAN STANDARD VENT

Vulcan Cast Aluminum Vents are manufactured so they are easily installed on the vent pipe by tightening two socket head set screws which are installed in the vent at the time of manufacture. The vents are well screened with a securely fastened No. 10 screen.

A unique advantage to the Vulcan Cast Aluminum Vent and Junction Vent is that the exhaust is directed away from the road or railroad. This is a requirement by law in some sections of the nation. It is weatherproof and rainproof.

The Vulcan Vent and Junction Vent are manufactured of high-grade aluminum alloy which can be coated in colors to suit your needs. They are made with holes drilled and tapped at the time of manufacture so that signs of the customer's design may be securely fastened to the vent or junction vent with metal screws. The highest grade non-corrosive materials are used in the manufacture of these products.

The Vulcan Junction Vent has a junction box cast as an integral part, which is used for installing cathodic protection test leads running from the pipeline through the conduit into the junction box and fastened to non-corrosive posts in the composition cover of the junction box. The cover does not have to be removed to take a reading. We can furnish the vent with posts installed in the cover; wires of any length, grade and type attached to these posts; installed in required lengths of conduit attached thereto; with pipe straps for securing the conduit to the vent pipe. The construction crew can quickly install the vent on the vent pipe, Cadweld the leads in place, and secure the conduit to the vent pipe in less time than it would take to merely cut and thread one piece of conduit.

MADE IN THE USA

VULCAN CAST ALUMINUM VENTS & CAPS

PRODUCT DATA

VULCAN VENT CAP

- VENTS ARE AVAILABLE FOR 2 3/8" AND 4 1/2" O.D. PIPE
- VENTS ARE AVAILABLE IN YELLOW, ORANGE OR WHITE
- PLATED SET SCREWS ARE INCLUDED FOR ATTACHING TO VENT PIPES
- AN ALUMINUM SCREEN IS INSTALLED TO KEEP INSECTS AND RODENTS OUT
- CUSTOM DECALS CAN BE APPLIED ON THE CAP PERIMETER
- AN OPTIONAL SIGN BRACKET CAN BE WELDED TO THE TOP OF THE CAP TO ACCOMMODATE A WARNING SIGN

VULCAN STANDARD VENT

- VENTS ARE AVAILABLE FOR 2 1/2", 3", 3 1/2" AND 4 1/2" O.D. VENT PIPES
- VENTS ARE AVAILABLE IN YELLOW, ORANGE, WHITE OR RED
- PLATED SET SCREWS ARE INCLUDED FOR ATTACHING TO VENT PIPES
- AN ALUMINUM SCREEN IS INSTALLED TO KEEP INSECTS AND RODENTS OUT
- HOLES ARE DRILLED AND TAPPED FOR MOUNTING SIGNS TO THE BACK OF THE VENT
- CUSTOM DECALS CAN BE APPLIED TO THE VENT OR TO THE BACKSIDE OF A MOUNTING PLATE TO MAKE THE DECAL VISIBLE FROM ANY SIDE

VULCAN NOODLE VENT

- AVAILABLE FOR 2 3/8" RISERS
- VENTS ARE AVAILABLE IN YELLOW, ORANGE, OR WHITE
- PLATED SET SCREWS ARE INCLUDED FOR ATTACHING TO VENT PIPES
- A PLASTIC BLOW PLUG IS INSTALLED TO KEEP INSECTS OUT

VULCAN JUNCTION VENT

- VENTS ARE AVAILABLE FOR 2 3/8", 3 1/2", 4 1/2" O.D. RISERS
- VENTS ARE AVAILABLE IN YELLOW, ORANGE, OR WHITE
- PLATED SET SCREWS ARE INCLUDED FOR ATTACHING TO VENT PIPES
- AN ALUMINUM SCREEN IS INSTALLED TO KEEP INSECTS AND RODENTS OUT
- HOLES ARE DRILLED AND TAPPED FOR MOUNTING SIGNS TO THE BACK OF THE VENT
- JUNCTION BOXES ARE DRILLED AND TAPPED TO RECEIVE 1/2", 3/4" OR 1" CONDUIT

VULCAN JUNCTION CAP

- CAPS ARE AVAILABLE FOR 2 3/8", 3 1/2" "4 1/2" AND O.D. RISERS
- CAPS ARE AVAILABLE IN YELLOW, ORANGE, OR WHITE
- PLATED SET SCREWS ARE INCLUDED FOR ATTACHING TO VENT PIPES
- HOLES ARE DRILLED AND TAPPED FOR MOUNTING SIGNS
- JUNCTION BOXES ARE DRILLED AND TAPPED TO RECEIVE 1/2" 3/4" OR 1" CONDUIT
