

Vulcan, Inc.

An Employee Owned Company!

A letter from the CEO.

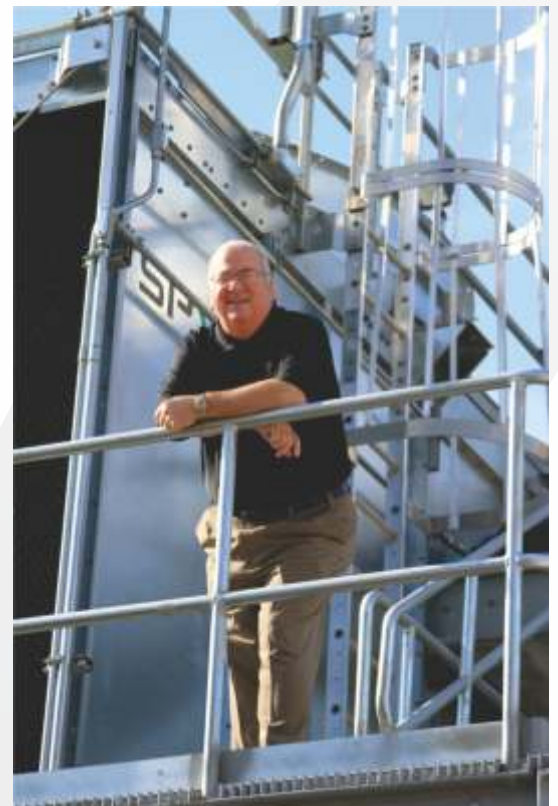

Thank you in advance for taking a few minutes to look through this brochure about our company. I sincerely hope it gives you a better total picture of Vulcan, and how at least one of our divisions can serve you as a customer.

Over the years, Vulcan has been fortunate to be able to grow through expansion and acquisition. As we have grown from a very small, to a small, to a mid-sized company, we have tried extremely hard to preserve a couple of basic principles. We want to continue to maintain a small-company attitude where customer service, quality products and fair prices are an everyday, every-order occurrence. And, we intend to treat our customers, vendors and business associates as we would like to be treated in return. Even though we may roll, shear, bend or paint various metal products, we are also in the people business. Whether it involves you or me or someone at our respective companies, a business association based on mutual respect will enable us both to profit.

Above I wrote that I hope this brochure gives you a better "picture" of our company. Come visit us in Foley and get a more complete understanding of who we are. We would like to show you what Vulcan can do for you.

Again, thank you for your time. We look forward to working with you.

Tommy Lee
CEO and President of Vulcan, Inc.

VULCAN ALUMINUM MILL — *ISO 9001:2008 Certified*

At Vulcan, we begin with prime aluminum melting stock to guarantee the cleanest possible coil products. We cast and hot roll 5052, 5754 and 5182 alloys.

The coils are cold rolled and finished to produce "0" through H38 Temper in thicknesses of .0315 to .1575 inches. Our slitting capabilities range from 3 inches up to 49 inches wide. All coils are tension leveled and cleaned prior to shipping. We can package and ship products to meet your specifications and delivery needs.

Our dedication to quality is reflected in all of our products. Vulcan Aluminum Mill is ISO 9001: 2008 Certified.

Let Us Exceed Your Expectations!

Our Quality, Customer Service & Lead Times Will Beat Any In The Industry.

Our Capabilities:

Aluminum 5052 and 5754

5052 Tempers: 0, H111, H32,
H34, H36, H38, H291

5754 Tempers: 0, H111, H22

Gauges: .0315" to .1575"

Width: 3" to 49"

Aluminum 5182

Tempers: 0, H111, H119

Gauges: .0315" to .100"

Width: 3" to 30"

- All coils are tension leveled and cleaned to provide maximum flatness and surface appearance.
- Automatic gauge controls on the rolling mill ensure uniform thickness of material.
- Coils are produced in compliance with the chemical and physical property requirements of The Aluminum Association.
- The ability to customize the rolling practice to meet your formability requirements.
- In-house cut-to-length, slitting, stamping and additional fabrication capabilities.

VULCAN ALUMINUM

Vulcan Aluminum is a fully integrated supplier of aluminum sign blanks and sheet to the traffic industry. We also supply many other users of fabricated aluminum products. Our sister division, Vulcan Aluminum Mill, supplies the materials, and we take over from there. Our aluminum products are cut and fabricated to the customer's exact specifications using state-of-the-art equipment. We apply a chemical conversion coating as the final step using our specially designed seven-step, high-pressure spray process. We've perfected this unique coating system, providing the best corrosion-fighting coverage in the industry.

We are the largest manufacturer of aluminum sign blanks and sheet in the country, and we can fulfill your aluminum needs at unbeatable prices. We produce and supply alloy 5052-H38, the industry standard, and all of our aluminum is lab certified.

**Over 60 Stock Items Shipped in 48 Hours or Less.
